naturally cranky, and voracious for bliss
doorfiend to the haunted underside of
both **techno** and **chillout/ambient**.
sets are a writhing crush of layers, caverns raging
always on the hunt for some new kind of kick.

At war with sound since 1995
spawn of NYC's seminal **illbient** scene,
which narcotic creepiness persists always.
host for four years of **Undercity**,
a weekly chillout party at the original Halcyon;
frequent guest at Twilo and the brilliant
Cloudwatch events: *sounds for the tripatorium*.

In Berlin, since 2013 resident DJ with **lsb.TV**,
weekly on HD cable, radio, and web on Alex Berlin
(with host Dr. Walker of Air Liquide),
maxing out the sound obsession
